

Laboratories:

Sr No	Name of laboratory	Location
1	Applied Hydrolics Lab	F-102
2	Geotech Lab	Basement
3	SOM Lab	104
4	Fluid Mechnics Lab	Basement
5	Surveying Lab	103

<p>Name of the Lab: Applied Hydrolics Lab            Location: F-102            Area in sq.mt : 66.00            Lab Resourses:            Hardware: Impact of jet flat plate, curved plate, pelton wheel, centrifugal pumps, Hydraulic ram, Wind tunnel, Tilting flume.</p>	
<p>Name of the Lab: Geotech Lab            Location: Basement            Area in sq.mt : 66.00            Lab Resourses:            Hardware: Mineralogy, Petrology, Physical Minerology, Fault Models, Folds.</p>	
<p>Name Of Lab: SOM Lab.            Location: B-104            Area in sq.mt : 66.00            Lab Resourses:            Hardware: Universal testing machine, Torsion Testing Machine, Brinell hardness Testing Machine &amp; Rockwell hardness Testing Machine common machine</p>	

Name: Fluid Mechanics Lab

Location: Basement

Area in sq.mt : 66.00

Lab Resources:

Hardware: Reynold apparatus, Viscometer,  
Equipment for Friction loss through  
pipes  
Equipment for Minor

Name: Survying Lab

Location: F-103

Area in sq.mt : 66.00

Lab Resources:

Hardware: Tachometer, Total Station
