The Department of Engineering Sciences and Humanities, Atma Malik Institute of Technology and Research, Shahapur organized a guest lecture on "Preparation for MPC Exam", Prof. Hemant Sonawane, Assistant Professor, AMRIT was the key speaker of the program. Prof. Hemant Sonawane told the students that they should have a particular Aim in their life. He then said that if the aim of any particular student is to crack any competitive exam then he/she should have the patience because such exams may sometimes take a period of a year or more for completion of all three phases of the exam or in either case sometimes the result may get delayed. He told students that they should follow their hobbies and must spend one hour daily for physical exercises. He also told students while preparing for such exams, it may take a year or more time so to maintain their physical and mental health, daily exercises are necessary.

The speaker also said a proper schedule is necessary for preparation of exams. He said the best way to start the preparation of the exam is to go through the previous question papers. He also said there are lots of distractions to everyone while studying and the only way to keep away the distraction is the dedication to success. He also said everyone should inspire their friends and support each other in preparation by group study, solving puzzles etc.

At the end the speaker also told students the importance of notes preparation and every student preparing for such a competitive exam should learn from failure and success stories of experienced students.

After that students asked the questions to the speaker. The session ended with the hearty thanks to Prof. Hemant Sonawane by Prof. Tejaswini Nehe in appreciation for taking the time out for educating the students on how to prepare for MPSC examinations.
